Summary

Security Engineer with around three years of hands-on experience in managed security services, operating and tuning a broad stack of 24+ enterprise security tools across WAF/WAAP, EDR, database activity monitoring, cloud security posture management, attack-surface management, DDoS protection, and vulnerability management. Trusted as the dedicated engineer on high-profile, high-traffic client accounts with elevated threat exposure.

Education

Kavayitri Bahinabai Chaudhari North Maharashtra University

Maharashtra, India

B.Sc, Chemistry, CGPA: 9.13/10

2022

Technical Skills

WAF / WAAP: Akamai WAAP, F5 BIG-IP ASM, F5 Silverline, F5 Distributed Cloud, FortiWeb, **EDR / XDR:** Palo Alto Cortex XDR (XQL, endpoint isolation, attack-chain analysis), **SIEM:** Splunk, Microsoft Azure Sentinel, **Database Activity Monitoring:** IBM Guardium DAM (S-TAP, GIM, archive/purge), **Cloud Posture (CSPM):** Orca Security, **Zero Trust / Secure Access:** Akamai EAA, Akamai ETP, Zscaler, **DDoS Protection:** Netscout Arbor, **Attack Surface & Deception:** ShadowMap, FortiRecon, Zscaler Smokescreen, **Mobile & Email Security:** NowSecure, Aquilai, **Vulnerability Management:** Nessus, Qualys (VMDB), HackerGuardian, Nipper, WhiteHat, Polaris, **HIDS / Network Security:** OSSEC; Fortinet firewalls, routing & switching, **ITSM / Ticketing:** ServiceNow.

Work Experience

Senior Associate, Information Security at NTT DATA, Mumbai, India

May 2024 - Present

Promoted from Associate Information Security Analyst

1. Device Management - shared managed-security operations

- Operate **24+** security tools across a shared multi-tenant SOC spanning dozens of customer environments including **70+** under DDoS protection (Netscout Arbor), **26** on Akamai WAAP, and **17** on F5 Distributed Cloud WAF, covering onboarding, configuration, policy tuning, health checks, upgrades, and incident response.
- Monitor an EDR estate of **~3,000** endpoints in Cortex XDR, and operate across WAF (F5 BIG-IP ASM, FortiWeb), zero-trust access (Zscaler, Akamai EAA/ETP), database monitoring (IBM Guardium DAM), attack-surface management (ShadowMap, FortiRecon), and vulnerability management (Nessus, HackerGuardian, Nipper).
- Triage and investigate alerts, tune signatures and policy to reduce false positives, perform **RCA** for P1/S1 critical incidents, and manage incident lifecycle and SLA adherence via ServiceNow, aligning WAF policies to **OWASP Top 10** and **PCI-DSS**.

2. Dedicated Security Engineer - major asset-management / mutual-fund client

- Managed application-layer protection and database activity monitoring for a large asset-management client with **strict data-sensitivity** and **compliance requirements**.
- Onboarded, configured, and tuned F5 Distributed Cloud WAF/WAAP policies, remediating findings and handling incidents; administered IBM Guardium DAM, S-TAP agents, policy configuration, archive/purge and retention.

3. Dedicated Security Engineer - high-profile national organization

- Sole dedicated engineer owning a multi-layer security stack for a **continuously targeted, high-traffic public-facing client**, spanning web, endpoint, cloud, mobile, email, attack-surface, and application domains.
- Onboarded and tuned Akamai WAAP/WAF policies (**rules, rate limiting, mitigations**) to defend against sustained web-layer attack traffic, and triaged endpoint threats in Cortex XDR through isolation and attack-chain analysis.
- Reviewed cloud posture in Orca Security and monitored external exposure via FortiRecon, NowSecure (mobile), and Aquilai (**Brand Monitoring**); drove application and vulnerability findings from Polaris and WhiteHat through to remediation.

SOC Analyst at Universal Technology, Maharashtra, India

May 2023 – May 2024

- Monitored and triaged security events across Splunk and Microsoft Azure Sentinel, escalating confirmed incidents in line with defined **SLAs**.
- Built and tuned detection rules and dashboards in Sentinel and Splunk to improve signal quality and reduce alert noise.
- Managed Fortinet firewall policies and supported network security across routers and switches, and performed first-line incident response.

Certifications

- Cloud Security:** Google Professional Cloud Security Engineer; Microsoft Cybersecurity Architect Expert (SC-100); Microsoft Security Operations Analyst Associate (SC-200); Palo Alto Prisma Access (SSE)
- Security & Offensive:** Certified Ethical Hacker (CEH v12); Cisco Certified Network Associate (CCNA); Certified Cyber Criminologist; Breach and Attack Simulation (BAS)

3. **Vendor / Tooling:** Palo Alto Networks Certified XDR Analyst; F5 ATS (XC AppSec, XC SMCN) & F5 Accredited Admin (XC); Fortinet NSE 1–3 & Fortinet Certified Fundamentals Cybersecurity; Qualys VMDR 2.0 Certified Specialist; Splunk Power User; Akamai Web Performance Foundations

Honors & Recognition

1. **Technical Excellence Award** - NTT DATA (Jun 2026).
2. **Operational Excellence Award** - NTT DATA (Oct 2025).
3. **Service Delivery Excellence - Wall of Fame** - NTT DATA (FY24 Q4).
